Aselda,

The Consent Agreement and Final Order was just entered. Payment is due within 30 days.

As I previously mentioned, we intend to issue a press release within the first couple of weeks of January. I will give you a heads up a day or two before we expect to send the release to our press contacts and then will provide you a copy of the release a couple of hours before we send it out to the press.

Thanks to you all for your cooperation in resolving this matter.

Happy New Year!

Julie A. Vergeront

I think that's fine – it's nothing substantive.

Hello,

Our tech support evidently fixed last night the issue on the document Mr. White signed yesterday.

So EPA could sign that CAFO now. There is the extra comma in the name and the mis-numbered paragraphs.

Please let me know what you prefer.

Thank you.

Hello,

I just found another issue. The version of the CAFO I sent out last week and that Mr. White signed this morning skipped a paragraph in the numbering (went from 3.48 to 3.50).

I have fixed that in this version—along with removing the comma before “US” in the dba name.

So please sign this version instead.

My sincere apologies for these issues. Working at home can be a challenge in terms of technology!

Regards,

Julie A. Vergeront

Subject: RE: Signed CAFO Equilon/Shell Puget Sound Refinery CA-10-2021-003

Hello,

I am sorry to bother you again. But when our administrative staff adds electronic signature blocks for the EPA signatures, the pages on which the signature blocks are added rotate upside down and then the signature blocks disappear.

I see two options here.

You could have someone remove the securing codes on your end in the document you sent back to me earlier today.

Alternatively, I am attaching here another version of the CAFO. It is identical to the one I sent last week, except that I removed the comma before "US" as in "Shell Oil Products US" in all locations. Aselda said that she did this in the signature block of the pdf I sent. That change to the pdf may be all or part of why we are not able to add electronic signatures to the version of the CAFO you signed and send back.

I am around for about another hour tonight, but I assume this will be addressed tomorrow am.

Thank you,

Julie A. Vergeront

Never mind!

We just figured it out. My apologies for the confusion.

Thanks,

Hello,

We are trying to add electronic signature blocks for EPA, but our administrative staff gets an error message when they try to do so.

Do you have the ability to have that security feature not apply to the EPA signature spaces? Or some other idea for addressing?

Thanks,

Julie A. Vergeront
